DPS AUDIO TECHNOLOGY

Noise Reduction Rating	24	dB (A)
WITH TEST AS DIRECTED		
CLEAR 360 PRO		
EPA		

Overexposure to noise can cause a variety of health problems, including anxiety, depression, and increased heart rate and CLEAR360's new CLEAR360PRO hearing protectors are designed to protect users' hearing without discomfort, even after prolonged wear.

Designed to be IP64 compliant, it offers superior dustproof and waterproof protection, yet allows users to hear their surroundings even when wearing it, maintaining 360-degree situational awareness and the ability to communicate with others. The CLEAR360PRO features technologies that support a selection of protection options, including Bluetooth and five listening modes. Voice Mode for two-way communication; Super Hearing Mode for greater intelligibility; Natural Mode for realistic sound; Comfort Mode to minimize ambient sound while maintaining natural sound; and Mute Mode to eliminate external sound and provide hearing protection while maintaining Bluetooth connectivity.

With a battery life of up to 16 hours and quick recharging capabilities, the CLEAR360PRO is an everyday hearing protection device headset that does not easily come off during physical activity, such as construction workers, aviation personnel, factory workers, and noisy store workers who work in noisy environments all day long, as well as everyday joggers and bicycle riders. It is designed to be worn comfortably for extended periods of time.

CLEAR360's team of physicians, audio engineers, and safety experts co-developed the CLEAR360PRO, which provides 360 situational awareness, clear and accurate communication and hearing protection in high noise environments.

Noise Reduction Ratio (NRR) according to ANSI S3. 19-1974 and Impact Noise Reduction Ratio according to ANSI S12.42-2010 have been measured and scientifically proven safe. Michael & Associates, Inc., which performed the measurements, is accredited by the National Voluntary Accreditation Program (NVLAP) of the National Institute of Standards and Technology (NIST), Laboratory No. 100427.

CLEAR 360 PRO Features

① Realistic 360-degree directionality and hearing protection

Real life-like auditory situational awareness. Users can control how much of the external environment is captured.

Patented hearing protection technology allows users to protect their hearing in situations ranging from extreme impact noises to sustained high noise environments.

② 5 Listening Modes (Voice Mode, Super Hearing Mode, Natural Mode, Comfort Mode and Mute Mode)

CLEAR360 Premium Hearing Protection works in all listening modes. Bluetooth is also supported in all modes.

VOICE MODE:

Optimized for voice and 2-way communication.

1

SUPER HEARING MODE:

Hear incredible detail within your surroundings.

2

NATURAL MODE:

Natural and realistic, as if you were wearing nothing.

3

COMFORT MODE:

Subdues environmental sounds yet remains natural and realistic.

4

MUTE MODE:

Removes outside stimulus while still providing hearing protection. Bluetooth-connected devices remain enabled.

5

③ 2-way communication in high noise environments

Enjoy clear communication in high noise environments, whether you are talking face-to-face or using a Bluetooth-connected device:

CLEAR 360 PRO delivers accurate and clear voice for both incoming and outgoing Bluetooth-connected radios and cell phones.

• Easy to use

Intentionally designed to be intuitive to use without training.

• Bluetooth 5.0 compatible.

Enjoy clear voice and music when paired with wireless communication, phone calls, music, etc.

• Dustproof and waterproof (IP64)

Designed to be impervious to dust and unaffected by water splashes from any direction.

• Comfortable for all-day use.

Portable and lightweight (70g). It is designed to be comfortable to use for extended periods of time.

• Up to 16-hour battery life.

The battery lasts up to 16 hours on a single full charge. Fast charging (full charge in 2 hours).

• Safety (24NRR/FCC)

From accurate and reliable ANSI/ASA NRR and impulse testing to OSHA/NIOSH safety requirements, CLEAR 360 discloses all certified safety data. FCC certified.
